Product Description

Used CAT 307E Factory Excavator Efficient Hydraulics Dual-Mode Selection

PRODUCT DESCRIPTION

The Cat 307E is an excavator launched by Caterpillar in 2014. It uses the new Cat C2.6 high-efficiency direct injection turbocharged engine and is equipped with a "standard/powerful" one-button switching dual-mode selection. Standard mode provides customers with an economical setting that improves fuel efficiency by 15% while maintaining best-in-class machine efficiency; if the operating environment requires it, just flip the switch to enter power mode to cope with the most severe excavation conditions.
