Basic Information

- Place of Origin: China
- Brand Name: Sunward
- Model Number: 17
- Minimum Order Quantity: 1 set
- Price: 3000 USD - 12800 USD
- Packaging Details: Bulk or Container
- Delivery Time: 5-8 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 units per year

Product Specification

- Machine Type: Crawler Mini Excavator
- Rated Power: 9.9kw
- Max Digging Radius: 3850mm
- Max Digging Height: 3509mm
- Weight: 1860kg
- Engine Model: 3TNV70-SSU
- Bucket Capacity: 0.04m³
- Walking Speed: 2.33/4.26km/h
- Highlight: **Crawler Second Hand Mini Excavator,
2155mm Second Hand Mini Excavator,
Used Mini Crawler Excavator**

Product Description

Product Description:

Product Overview: Used Mini Excavator

The Used Mini Excavator is a second-hand construction equipment that is perfect for small to medium-sized projects. With its compact size and powerful performance, it is an ideal choice for contractors and construction companies.

Walking Speed

The Used Mini Excavator has a walking speed of 2.33/4.26km/h, making it easy to maneuver around tight spaces and challenging terrains. This allows for efficient and quick transport of the excavator to different job sites.

Max Digging Radius

With a max digging radius of 3850mm, the Used Mini Excavator can easily reach and dig in hard-to-reach areas. This makes it perfect for digging trenches, foundations, and other construction tasks.

Weight

The Used Mini Excavator has a weight of 1860kg, making it lightweight and easy to transport. This also allows for better fuel efficiency and reduces the impact on the environment.

Bucket Capacity

The bucket capacity of the Used Mini Excavator is 0.04m³, allowing for efficient and precise digging. This makes it suitable for various types of excavation jobs, such as digging, scooping, and loading materials.

Max Digging Depth

The maximum digging depth of the Used Mini Excavator is 2155mm, making it suitable for a wide range of construction tasks. Whether it's digging trenches or excavating foundations, this excavator can easily handle it with precision and efficiency.

Overall, the Used Mini Excavator is a reliable and cost-effective choice for any construction project. With its compact size, powerful performance, and versatile capabilities, it is a valuable addition to any construction fleet. Contact us today to learn more about our second-hand mini excavators and how they can benefit your business.

Technical Parameters:

Product Name	Used Mini Excavator
Machine Type	Crawler Mini Excavator
Engine Model	3TNV70-SSU
Rated Power	9.9kW
Weight	1860kg
Walking Speed	2.33/4.26 km/h
Max Digging Depth	2155mm
Max Digging Height	3509mm
Max Digging Radius	3850mm
Bucket Capacity	0.04m³

Applications:

Used Mini Excavator - Sunward 17

Are you in need of a compact and efficient excavator for your construction or renovation project? Look no further, because the Sunward 17 is here to meet all your needs!

The Sunward 17 is a second-hand mini excavator that offers high-quality performance at a low cost. Made in China, this excavator is designed to handle a variety of tasks in different environments, making it the perfect choice for any construction site.

Efficient and Compact

With a walking speed of 2.33/4.26km/h, the Sunward 17 can easily maneuver through tight spaces and get the job done quickly. Its compact size also makes it easy to transport and work in confined areas, making it suitable for both indoor and outdoor projects.

Durable and Flexible

The Sunward 17 is built to last, with a durable body and powerful engine model 3TNV70-SSU. This allows it to handle heavy-duty tasks with ease. The excavator's flexible design also allows for easy attachment of different tools, making it suitable for a wide range of applications.

High-Quality and Low-Cost

Despite being a second-hand excavator, the Sunward 17 is still of high-quality and can deliver exceptional performance. It is also available at a lower cost compared to brand new excavators, making it a cost-effective option for any construction project.

Application Scenarios

The Sunward 17 can be used in various scenarios, including:

Construction sites - for digging, trenching, and material handling

Renovation projects - for demolition, excavation, and landscaping

Farm work - for digging trenches, clearing debris, and loading materials

Road and pavement repair - for digging and filling potholes, and repairing damaged surfaces

F & Q:

Xuanjue Serve For You, Best Quality And Lowest Price

Q1. What payment method?

Payment is negotiable

Q2. Will our company provide any service to the machine?

Yes! Before we deliver the machine, we will test, check, service, maintenance and clean it the machine.

Q3. What's the MOQ ?

MOQ is 1set. FOB or others can be negotiated.

Q4. What's the payment terms?

FOB or others can be negotiated.

Q5. Who pays the freight?

This is determined based on the payment method. We can either find a freight forwarder or the customer can designate a freight forwarder.

If you have any questions, you can call and send an email at any time and leave a message. We will answer you as soon as possible after seeing it.
