Basic Information

- Place of Origin: Japan
- Brand Name: Hitachi
- Model Number: ZX60
- Minimum Order Quantity: 1 set
- Price: 11800 USD - 25800 USD
- Packaging Details: Bulk or Container
- Delivery Time: 5-8 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 units per year

Product Specification

- Gradeability: 70/35%
- Max Digging Height: 5800mm
- Max Digging Depth: 3850mm
- Rated Power: 40.5kw/2100
- Bucket Capacity: 0.22m³
- Engine Model: ISUZU CC-4JG1
- Working Weight: 5850kg
- Walking Speed: 2.5/4.5km/h
- Highlight: Construction Industry Used Hitachi Excavator,
3850mm Used Hitachi Excavator,
Hitachi Second Hand Excavator

3850mm Max Digging Depth Hitachi Excavator Mechanism with and 0.22m3 Bucket Capacity

Product Description:

Product Overview: Used Hitachi Excavator

The Used Hitachi Excavator is a reliable and powerful construction machine that is perfect for any digging or excavation job. With its sturdy design and advanced features, this excavator is a top choice for professionals in the construction industry.

Max Digging Depth: 3850mm

The Hitachi Excavator Mechanism allows for a maximum digging depth of 3850mm, making it ideal for digging deep trenches or foundations. This impressive depth ensures efficient and effective excavation in any project.

Engine Model: ISUZU CC-4JG1

Equipped with an ISUZU CC-4JG1 engine, this excavator provides powerful performance and exceptional fuel efficiency. The engine is also known for its durability and low maintenance, ensuring that the excavator can withstand heavy use in any construction site.

Max Digging Height: 5800mm

The Hitachi Excavator Mechanism also allows for a maximum digging height of 5800mm, making it easy to reach high points and complete vertical excavation tasks. This height is perfect for building construction, roadwork, and other projects with elevated areas. Gradeability: 70/35%

The excavator's gradeability of 70/35% allows it to operate on steep slopes and rough terrain, providing versatility and flexibility in any construction project. This feature also enhances the excavator's efficiency and productivity, making it a valuable asset on any job site. Working Weight: 5850kg

The Hitachi Excavator Mechanism has a working weight of 5850kg, making it lighter and more maneuverable compared to other excavators with similar capabilities. This weight allows for easy transportation and handling, making it suitable for various construction sites.

In conclusion, the Used Hitachi Excavator is a highly capable and efficient construction machine that can handle a wide range of excavation tasks. With its advanced features and impressive specifications, it is a top choice for professionals in the industry looking for a reliable and powerful excavator.

Technical Parameters:

| Hitachi Excavator Mechanism | Technical Specifications |
|-----------------------------|--------------------------|
| Bucket Capacity | 0.22m³ |
| Walking Speed | 2.5/4.5km/h |
| Rated Power | 40.5kw/2100 |
| Engine Model | ISUZU CC-4JG1 |
| Max Digging Height | 5800mm |
| Gradeability | 70/35% |
| Working Weight | 5850kg |
| Max Digging Depth | 3850mm |

Applications:

Used Hitachi Excavator ZX60

The Hitachi ZX60 is a high-quality, durable excavator that is designed for use in a variety of applications. With its impressive specifications and powerful engine, it is a popular choice among construction companies and contractors.

Product Description:

The Hitachi ZX60 excavator is part of the Hitachi Excavator Mechanism series and is known for its reliability and efficiency. Its powerful ISUZU CC-4JG1 engine provides a rated power of 40.5kw/2100, making it suitable for various heavy-duty tasks. With a gradeability of 70/35%, it can easily navigate through rough terrains and steep slopes.

Application Scenarios:

The Hitachi ZX60 is commonly used in the construction industry for tasks such as digging, trenching, and loading. Its compact size and maneuverability make it suitable for working in tight spaces, making it a popular choice for urban construction projects. It is also widely

used in agriculture, mining, and forestry for its versatility and reliability.

Features and Benefits:

Durable and Reliable:

The Hitachi ZX60 is built with high-quality materials and advanced technology, making it a durable and reliable machine. It can withstand tough working conditions and has a long lifespan, making it a cost-effective choice for businesses.

Efficient Performance:

Equipped with a powerful engine and advanced hydraulic system, the Hitachi ZX60 delivers exceptional performance. It has a maximum digging depth of 3850mm and a bucket capacity of 0.22m³, making it suitable for a wide range of tasks.

Easy Maintenance:

The Hitachi ZX60 is designed for easy maintenance, with accessible components and a user-friendly interface. This reduces downtime and ensures that the machine operates at its best efficiency.

Conclusion:

The Hitachi ZX60 is a versatile and reliable excavator that is suitable for a wide range of applications. Its high-quality construction, efficient performance, and user-friendly design make it a popular choice among contractors and businesses. With its durable and efficient Hitachi Excavator Mechanism, it is a valuable addition to any construction or mining fleet.

F & Q:

Xuanjue Serve For You, Best Quality And Lowest Price

Q1. What payment method?

Payment is negotiable

Q2. Will our company provide any service to the machine?

Yes! Before we deliver the machine, we will test, check, service, maintenance and clean it the machine.

Q3. What's the MOQ ?

MOQ is 1set. FOB or others can be negotiated.

Q4. What's the payment terms?

FOB or others can be negotiated.

Q5. Who pays the freight?

This is determined based on the payment method. We can either find a freight forwarder or the customer can designate a freight forwarder.

If you have any questions, you can call and send an email at any time and leave a message. We will answer you as soon as possible after seeing it.
