

0.055-0.22m³ Capacity Komatsu Digging Excavator PC56-7 for Smooth Digging Operations

Our Product Introduction

more products please visit us on used-excavatormachine.com

Basic Information

- Place of Origin: Japan
- Brand Name: Komatsu
- Model Number: PC56-7
- Minimum Order Quantity: 1 unit
- Price: Negotiable
- Packaging Details: 40HQ
- Delivery Time: 5-10 days
- Payment Terms: T/T
- Supply Ability: Strong supply capacity

Product Specification

- Walking Style: Crawler Tracks
- Travel Speed: 2.6/4.1km/h
- Max Digging Depth: 3810mm
- Max Digging Height: 5860mm
- Rated Power: 34.5/47kw/rpm
- Capacity: 0.055-0.22m³
- Model: PC56-7
- Working Weight: 5300kg

Product Description

Product Description:

One of the standout features of this Komatsu Earth Moving Excavator is its travel speed. It can reach speeds of up to 2.6/4.1km/h, making it one of the fastest excavators in its class. This is essential for completing jobs quickly and efficiently, which is why this excavator is a popular choice for construction crews and contractors.

Another impressive feature of this excavator is its rated power. With a power output of 34.5/47kw/rpm, this excavator can handle even the toughest excavation jobs. Its maximum digging depth of 3810mm also makes it a versatile piece of equipment that can be used for a wide range of projects.

In summary, the Used Komatsu Excavator is a reliable and efficient piece of equipment that is perfect for any earth-moving job. Its speed, power, and versatility make it a popular choice for construction crews and contractors who need a reliable and heavy-duty excavator.

Whether you are digging trenches, excavating foundations, or removing debris, this Komatsu Earth Moving Excavator is the perfect tool for the job.

Features:

Product Name: Used Komatsu Excavator

Max Digging Height: 5860mm

Working Weight: 5300kg

Max Digging Depth: 3810mm

Model: PC56-7

Digging Bucket: Backhoe

Features: Komatsu Earth Moving Excavator, Komatsu Hydraulic Excavator, Komatsu Hydraulic Excavator

Technical Parameters:

Komatsu Earth Moving Excavator	
Model:	PC56-7
Engine name:	Komatsu S4D87E-1
Rated Power:	34.5/47kw/rpm
Walking Style:	Crawler Tracks
Working Weight:	5300kg
Travel Speed:	2.6/4.1km/h
Max Digging Depth:	3810mm
Max Digging Hight:	5860mm
Capacity:	0.055-0.22m³
Digging Bucket:	Backhoe
Komatsu Heavy Equipment Excavator	

Applications:

The Komatsu Heavy Equipment Excavator has a working weight of 5300kg, which makes it a robust and reliable machine. It can handle heavy loads and move large volumes of earth with ease. With a rated power of 34.5/47kw/rpm, it is a powerful machine that can dig deep into the ground.

The Komatsu Earth Moving Excavator has a maximum digging height of 5860mm, which makes it ideal for use in tall structures. It can easily reach the top of tall structures and excavate the required area. The machine also has a travel speed of 2.6/4.1km/h, which makes it easy to move from one location to another.

The Komatsu PC56-7 is made in Japan and has a strong supply capacity. The minimum order quantity is one unit, and the price is negotiable. The packaging details are 40HQ, and the delivery time is 5-10 days. Payment terms are T/T, which makes it easy for customers to make payments.

The Komatsu Construction Excavator is an ideal machine for various applications, including urban construction, mining, and quarrying. Its robust design and powerful performance make it a reliable machine that can handle any job.

Customization:

Customize your Komatsu Hydraulic Excavator according to your construction needs.
Our Komatsu Construction Excavator model number PC56-7 is from Japan, with a capacity of 0.055-0.22m³ and a working weight of 5300kg.
With a strong supply capacity, we have a minimum order quantity of 1 unit and negotiable prices.
The packaging details are 40HQ and delivery time is 5-10 days. Payment terms accepted are T/T.
Our Komatsu Digging Excavator has a travel speed of 2.6/4.1km/h and a maximum digging height of 5860mm.
The maximum digging depth of this excavator is 3810mm, making it suitable for various construction purposes.
